

SCIGRIP's adhesive technologies to be showcased at Seawork 2012

15th May 2012, Tyne and Wear, UK – SCIGRIP, the global leader in adhesive solutions and Marineware, provider of high performance coatings and composite products, will be exhibiting together at Seawork International 2012 in Southampton from 22nd – 24th May. Their appearance at the show follows last month's announcement that Marineware has been appointed SCIGRIP's key UK distributor to the marine market.

The Seawork event will provide the perfect opportunity to showcase the latest advancements in adhesive solutions. Specifically designed for the most demanding marine applications, SCIGRIP's new 10:1 Methacrylate products deliver outstanding application build, low exotherm cure and tough final results.

The following products from the Methacrylate range will be a key focus:

SG300 Series

- Ideal for bonding metals and metals to plastic
- Available in a range of cure times in cartridges, pails or drum
- Excellent environmental and chemical resistance

SG230

- High build adhesive for large component assembly without slump or overheating
- Very high toughness for impact, peel and fatigue strength
- Dial-up speed control with unchanged final cold cured bond strengths to optimise productivity
- Moisture tolerant application for wet weather work

SG5000

- High strength 1:1 ratio methacrylate adhesives for multiple uses

SCIGRIP and Marineware's representatives will be available throughout the show on Stand B205 to discuss SCIGRIP's product offerings in more detail.
